Experience

Company	EPAM (Kyiv, Ukraine)
Duration	October 2016 - January
Project	Internal BigData project for air transport domain
Role	Developer
Technologies	Java 8, Scala, Akka, SBT, Hadoop (HDFS, MapReduce, YARN), Hive, Spark, Cassandra
Company	EPAM (Kyiv, Ukraine)
Duration	December 2016 - Present
Project	E-commerce system for Canadian sports goods retailer
Role	Key Developer
Technologies	Java 8, Hybris, Spring, JMS (Tibco EMS), JUnit, Oracle, Tomcat, Ant, Maven, Docker, Vagrant
Company	EPAM (Kyiv, Ukraine)
Duration	August 2016 - December 2016
Project	E-commerce system for several brands of UK-based builders' merchant and home improvement retailer
Role	Key Developer
Technologies	Java 8, Hybris, Spring, AWS, Oracle, Cucumber BDD, JavaScript, Docker
Company	EPAM (Kyiv, Ukraine)
Duration	September 2015 - July 2016
Project	E-commerce project for the biggest Canadian hiking and sport goods retailer
Role	Key Developer
Technologies	Java 8, Hybris, Spring, JMS (Tibco EMS), JUnit, Oracle, Tomcat, Ant, Maven, JAXB, Infinispan, Red Hat Data Grid
Company	EPAM (Kyiv, Ukraine)
Duration	May 2015 - September 2015
Project	E-commerce project for Canada's biggest electronics retailer
Role	Developer
Technologies	Java, Hybris, Spring, JUnit, MS SQL, Tomcat, Ant, JAXB
Company	Globallogic (Kyiv, Ukraine)
Duration	January 2015 - May 2015
Project	Network discovery and reconciliation system for one of the biggest Swedish Telecom companies
Role	Developer
Technologies	Java, EJB, Spring, Hibernate, JMS, JUnit, Oracle DB, Weblogic, Ant, Gradle, JBPM, Groovy, Python, JAXB, JAXP
Company	NetCracker Technology (Kyiv, Ukraine)
Duration	August 2014 - December 2014
Project	Migration of OSS/BSS to open source platform
Role	Senior Developer
Technologies	Java Core, EJB, Spring, JUnit, Mockito, EHCache, Oracle DB, PostgreSQL, Weblogic, WildFly AS, Ant, Ivy, GWT
Company	NetCracker Technology (Kyiv, Ukraine)
Duration	April 2014 - August 2014
Project	Error handling framework for OSS/BSS of Deutsche Telekom
Role	Developer
Technologies	Java Core, JMS, Maven, XML, XPath, Web Services, Oracle DB
Company	NetCracker Technology (Kyiv, Ukraine)
Duration	March 2013 - April 2014
Project	Order management system for Consolidated Communications (Texas, USA)
Role	Junior Developer
Technologies	Java Core, EJB, JSP, AJAX, JavaScript, Maven, Jenkins, XML, JasperReports, Oracle DB

Education

2014 - 2016

Master's degree in Computer Science at Institute for applied system analysis, Kyiv Polytechnical Institute (research of Convolution Neural Networks)

2010 - 2014

Bachelor's degree in Computer Science at Institute for applied system analysis, Kyiv Polytechnical Institute (research of fingerprint recognition techniques)

I have worked with

Programming languages

Java, Scala, Python, JavaScript, Groovy

Front-end technologies

HTML, CSS, AJAX, JSP, GWT

Frameworks

Play 2 (Scala), Spring Core/MVC/AOP/Integration and others, EJB Hybris, JPA (Hibernate), JBPM

Relational DBMS

Oracle, PostgreSQL, MS SQL

NoSQL DBMS

Cassandra, Hive, MongoDB, Redis

Build tools

SBT, Maven, Gradle, Ant

Unit-testing frameworks

ScalaTest, JUnit, Mockito, PowerMock

Other technologies

HDFS, MapReduce, YARN, Akka (Streams, HTTP), Zookeeper, Docker, Vagrant, EHCACHE, Infinispan, JAXB, JAXP, WebSockets, REST, Servlets, JMS, JasperReports

Languages

English (Upper Intermediate), German (Intermediate)

I am interested in

Machine learning algorithms, NoSQL databases, distributed systems
